

Flow chart

Flow chart - Notes

Note #1

The service provider can access too the chat in 2 conditions. He is invited for a work OR the clients contacts him after recieving his first application to the job enquiry

Note #2

Some Amelia features are useless, such as the feature where CP can put their jobs, because we already have it in the WP theme

Note #3

The SP provider can share his calender with the client so so that the client books the slot, or ask the SP to book the slot. Then the client will receive an invitation

Note #4

When a client posts a job, the fields are: Job description, priority, availability for online sessions (pick 1 and several dates and time)
