Tuesday 18 June

CONDECO

CONDECO
POWERING CHANGE

Condeco Touch 2

The advanced touch screen for meeting rooms

Condeco Touch 2, the latest generation in digital signage, are a perfect addition to any fast-paced work environment. The high-resolution 10.1" screen clearly displays the meeting room name, availability, and booking information, letting you check-in and book meetings fast and efficiently. The sleek design adds a professional look to your workplace and is available in aluminum effect finish.

Minimize no-shows and maximize usage

Should the meeting host or registered attendees not show up, the auto-bump feature will automatically release the room within a set time frame so that it can be freed up for somebody else to use.

Find and book rooms fast

Easily identify if a room is occupied, booked or available with red, amber and green LED lights. Quickly scan for available rooms with status lights that have 180° visibility.

Fast access using a PIN or RFID card

Condeco Touch 2 lets you instantly start a meeting directly from the screen, book an available room, or release a room using your PIN or RFID card.

Real-time data to make more informed decisions

Each screen gathers essential information in real-time about how rooms are booked and used. This enables you to make informed decisions about your workspace.

Key Features

Links to MS Exchange via Condeco Connect software

Book and check-in to meetings on the screen using a PIN or RFID card

Manage meetings directly from the screen, MS Outlook, or Condeco Meeting Room Booking Software
